DATA FOR IMPACT

D4IMonitor

Happy
Holidays!

As we stand at the threshold of a new year, Data for Impact (D4I) celebrates the milestones and collective achievements in 2023 that have supported evidence use to improve programs, policies, and health outcomes.

2023 Unwrapped: D4I Highlights

© 2023 Saburi Seif

D4I, Ifakara Health Institute (IHI), icddr,b, and The London School of Hygiene and Tropical Medicine showcased the [EN-MINI tools](#) at the [International Maternal Newborn Health Conference](#) in Cape Town, South Africa. IHI also presented the EN-MINI Tools at the [Reproductive, Maternal, Newborn, Child, and Adolescent Health + Nutrition Conference \(RMNCAH+N\)](#) in Dar es Salaam, Tanzania.

[View Event Photos](#)

D4I hosted [five webinars in a series focused on health equity in monitoring, evaluation, and learning \(MEL\)](#). High-quality data can help stakeholders better understand current health inequities, promote equity-sensitive program approaches, measure progress toward equity, support accountability for equity, and raise awareness about actions that affect health equity.
